Organizers:

Island Research Center, Ministry of Natural Resources

China Oceanic Development Foundation

Co-organizers:

Third Institute of Oceanography, Ministry of Natural Resources

Xiamen Marine International Cooperation Center

Research Center for Pacific Island Countries, Liaocheng University

The 2021 International Forum on Island Ecological Conservation will be held in Xiamen, Fujian Province, China. It will be organized by Island Research Center, Ministry of Natural Resources & China Oceanic Development Foundation. The Forum is co-organized by Third Institute of Oceanography of the Ministry of Natural Resources, Xiamen Marine International Cooperation Center, and Research Center for Pacific Island Countries, Liaocheng University.

Background

World Ocean Week in Xiamen is organized by the Ministry of Natural Resources, Xiamen Municipal Government, etc. Since its establishment in 2005, it has developed into a marine culture festival with wide public participation and an exchange platform for global marine policy, science and technology, integrated decision-making, and joint action. Islands are an important part of the ocean and play an increasingly prominent role in the sustainable development of regional economy and society. Island countries have urgent practical and management experience sharing needs in island ecological conservation and restoration, climate change, disaster prevention and mitigation, blue economy, and sustainable development. In order to achieve this goal, Island Research Center of the Ministry of Natural Resources and China Oceanic Development Foundation plan to

organize and hold the 2021 International Forum on Island Ecological Conservation during the World Ocean week in Xiamen, aiming at implementing the One Belt, One Road initiative, serving the construction of ecological civilization, and constructing the blue partnership of islands, promoting the global island governance and the sustainable development. We sincerely invite all guests to attend the Forum.

Forum theme: Nature-based island conservation, restoration and management practice

Goal

The goal is to organize the participation of global island research experts and managers. We wish we can introduce concepts and practice cases of nature-based island protection, restoration and management, share the experience of global island development, and serve the sustainable development of global islands.

Special Topics

Including, but not limited to:

- (1) Technology and practice of island ecological conservation and restoration;
- (2) Addressing climate change and disaster prevention and mitigation;
- (3) Island sustainable development.

Language

The official language of the forum is English.

Due time

Deadline for summary submission: September 26, 2021

Deadline for slides submission: October 20, 2021

Deadline for article submission: November 14, 2021

Time of the forum: November 19, 2021

Address

105 Mupu Road, Huli District, Xiamen City, Fujian Province.

Fees

The conference is free of registration fee, and the organizer will offer meals during the conference. Accommodation and transportation expenses shall be borne by attendees themselves.
